欢迎来到人文社科学院！

在香港中文大学（深圳），传统与现代并重，中国文化与全球视野并举。我校秉承“博文约礼”的校训，以全人教育拓展学生的智识与能力，培养学生成为具有社会责任感和全球视野的公民。

人文社科学院承担本校两大重要教学任务。首先，我院为全校各院系学生提供多学科领域的基础课程，包括通识教育、英语、中文、体育、基础信息技术应用等，以此为本校学生的全人教育奠定坚实基础。

除此以外，我院矢志将自身发展为人文社科领域的顶尖院系，打造多领域、高质量的本科与硕士课程项目。我院目前已分别设立高水准的翻译专业（笔译/口译）、同声传译硕士学位以及翻译本科学位项目。未来还将陆续开设一系列新的跨学科本硕项目，如应用心理学、中国文化、全球研究、创意媒体、城市学、教育学、社会学等。

高质量的教学项目离不开高水准的教师队伍与优秀的学生。为此，我们秉承香港中文大学等国际一流大学的严格聘用标准从全球范围内选聘教师，同时亦有幸汇聚了一批出类拔萃的本硕学生。人文社科学院致力于营造丰富充实、友爱互助的学习环境，帮助每一位学生发掘出其最大潜能。

我很高兴地邀请各位访问我们学院的网站和微信平台，了解我校丰富的教学与学习资源。同时诚邀各位莅临新落成的校区，体验我校丰富多彩、别具一格的校园文化与人育人环境。

Welcome to the School of Humanities and Social Science (HSS)!

In CUHK-Shenzhen, we emphasize both time-tested traditions and modernity, and combine Chinese cultures with global perspectives. As our university motto (“博文约礼”) indicates, our university provides a comprehensive education to broaden our students' intellectual horizon and capacity, and to help our students to grow to be socially responsible citizens with global perspectives.

HSS has two important missions for our university's education. First, HSS provides foundational education for all university students in multiple areas, including general education, English language competency, Chinese language competency, physical education and fitness, basic competency in instructional technology (IT) applications, etc. These areas lay the foundation for the comprehensive education that all CUHK-Shenzhen students receive.

Beyond the foundational education that HSS provides to all students, HSS intends to become a school of excellence in humanities and social sciences, and to provide high-quality programmes in multiple areas at both undergraduate and postgraduate levels. At present, HSS offers two high-quality master programmes: Master of Arts (MA) in Translation and Interpreting Studies (MAT&I), and Master of Arts in Simultaneous Interpreting (MASI). At the undergraduate level, HSS offers a high-quality Bachelor of Arts (BA) programme in Translation. In the near future, HSS will start a series of new and interdisciplinary programmes at both bachelor and master levels, including, for example, applied psychology, Chinese culture, global studies, innovative media studies, urban studies, educational studies, sociological studies, and others.

High-quality programmes are only possible when we have high-caliber faculty members, and when we have outstanding students. For this purpose, we recruit our faculty members globally by using rigorous standards as used in internationally competitive universities, such as the Chinese University of Hong Kong (CUHK). We have also been fortunate in having both undergraduate and postgraduate students who are the cream of the crop in their peer groups. In HSS, we strive to build a rich and supportive learning environment to help each and every student to maximize their potentials.

I'm delighted to invite you to visit our website and official WeChat platform for various exciting opportunities of teaching and learning at our school. I am even more delighted to invite you to visit our brand new campus to experience our rich, unique and supportive institutional culture and environment.

UNIVERSITY CORE COURSES

大学核心课程

除专业课程外，人文社科学院还负责为全校本科生教授五门大学核心科目，他们分别是：中文、通识教育、英语、体育和信息技术。

Besides major courses, HSS is in charge of five University Core Courses for all undergraduate students including Chinese, General Education, English, Physical Education and Information Technology.

EXTENSIVE LEARNING — CHINESE

博古通今 —— 中文课

作为香港中文大学（深圳）的核心课程之一，中文课选取古今中外、中国大陆、港澳台及海外具有影响力的著作作为教材，充分扩展学生的阅读视野，使之熟悉和掌握鉴赏中国语言文学的工具和方法，从全新的视角认识中国语言文化的特色及功能，全面提升学生的中文修养。与此同时，教学的编排也从书信、公文入手，指导学生写作合乎正式语体规范的内容，并在此基础上使学生了解学术写作的规范、结构和技巧，在训练中提高学生学术写作的能力。不仅如此，同学们还可以通过课堂讨论和导修报告等训练提高口语表达的能力。

As one of the core courses at CUHK-Shenzhen, the Chinese course introduces students to an array of literary works from China and overseas to broaden students' vision, and to equip them with different tools and methods essential to the appreciation of Chinese language and literature. Students are taught to understand the features and functions of Chinese language and culture from new angles, which in turn cultivates students' competency in the use of Chinese. Additionally, the course introduces students to formal writing styles through writing a variety of formal letters and documents. Based on this teaching model, students will gain hands-on experience and acquire the norms, structures and techniques of academic writing, thereby improving their abilities in academic writing. Students are also trained to enhance their oral communication abilities through in-class exercises, discussions, and tutorial presentations.

PIONEERING — GENERAL EDUCATION

独具特色——通识教育

香港中文大学素来以其全面而有特色的通识教育著称于国际，并于2015年获得美国通识及博雅教育课程协会（Association for General and Liberal Studies，简称AGLS）颁发的通识教育优化模范课程奖（2015 Exemplary Program Award for Improving General Education），成为首间来自美国以外的获奖院校。香港中文大学（深圳）传承港中大通识课程博雅教育理念，将其视为大学教育不可或缺的一环，为全体本科生提供专业教育之外的全人教育，促进学生智性全面发展，引导学生认识人类和现代社会的重要话题、理念和价值，培养他们成为胸怀全球、关心社会的公民。

通识教育基础课为本科生建立共同的智性及文化基础，透过阅读经典选篇，提升他们对人类处境的感知，并促进师生在这些问题上的智性对话。课程分为两个科目，即“与人文对话”及“与自然对话”，两科均使用香港中文大学自编教材，涵括来自柏拉图、亚里士多德、孔子、庄子、达尔文、牛顿等人的经典人文与科学著作原文。基础课采用讲座和小组研讨方式进行互动式教学，注重培养学生批判思维能力和阅读经典原著及智性写作能力。

在通识基础课之外，大学通识教育选修课进一步扩阔同学视野，引介他们探究人类智性关怀的四个基本范畴：人与自身文化承传的关系、与物质世界的关系、与其他人的关系及与自身的关系。科目强调同学对不同学科处理问题的学术方法有一定的理解，特别是掌握这些方法对分析当代议题的重要性。学生须在以下四个范畴中至少各选修一门课程：中华文化遗产，自然、科学与技术，社会与文化，自我与人文。

香港中文大学（深圳）通识教育由人文社科学院统筹规划，所有任课教师均具有国际教育背景，在世界知名大学取得博士学位。

For a long time, CUHK has enjoyed the reputation brought about by its comprehensive and distinctive programme of General Education (GE). It has been honored with the 2015 Exemplary Program Award for Improving General Education by the American Association for General and Liberal Studies (AGLS), becoming the first institution outside the U.S. to be recognized in the international arena. CUHK-Shenzhen aims at carrying out the mission of General Education of CUHK and providing a balanced undergraduate education for all students to help them to understand critical issues, ideas and values of humanity in modern society. The ultimate goal of the GE Curriculum is to develop students to become global citizens with life-long learning capabilities.

General Education Foundation (GEF) courses aim to provide students with a common intellectual and cultural foundation, on which sensitivity to the concerns of human existence may develop, and intellectual dialogues on these concerns may emerge. There are two foundation courses, "In Dialogue with Humanity" and "In Dialogue with Nature", in which students, through the study of classic texts, engage in dialogues with Nature and Humanity to explore the world of science, and reflect on the ideal society and good life. Texts to be studied include writings from such classic thinkers as Plato, Aristotle, Confucius, Zhuangzi, Darwin and Newton. The courses engage students in lectures and small classes, and interactive seminars are the major form of instruction in order to develop students' ability to read original classic works and write analytically as well as encourage critical and free discussion between teachers and students.

Building upon the Foundation, the GE electives further broaden students' vision by inviting them to examine four fundamental realms of human concerns, namely, one's relation with one's cultural heritage, with the physical world, with fellow human beings and with oneself. Emphasis is also placed on critical appreciation of the various disciplinary approaches to these concerns, particularly in their relevance to contemporary issues. A student in CUHK-Shenzhen needs to take at least one course from each of the four areas: A) Chinese Cultural Heritage; B) Nature, Science and Technology; C) Culture and Society; and D) Self and Humanity.

General Education in CUHK-Shenzhen is centrally planned and administrated under HSS, and all instructors in the programme are Ph.D. holders from world renowned universities.
